FINDINGS

Summary

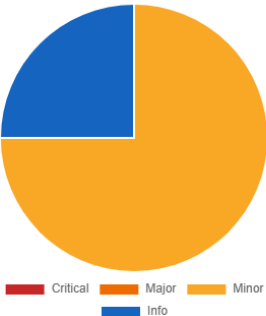

The UI validation result shows a medium quality score of 73, with 3 minor findings and 1 informational finding. The issues are related to spacing, alignment, color consistency, and text localization. Overall, the quality is not perfect but does not have critical or major issues. The findings suggest some improvements are needed for better user experience.

File C:/Users/Srinivasan/Downloads/validation-val_1a909c78-42cd-454e-8f6c-74cbb98b2a56-report.html

Summary

The UI validation result shows a medium quality score of 73, with 3 minor findings and 1 informational finding. The issues are related to spacing, alignment, color consistency, and text localization. Overall, the quality is not perfect but does not have critical or major issues. The findings suggest some improvements are needed for better user experience.

Severity Breakdown

Findings				
SEVERITY	CATEGORY	DESCRIPTION	SOURCE	CONFIDENCE
minor	spacing	Insufficient spacing between 'Sign up to get started' and the email address input field	vision-llm	80%
minor	alignment	The 'Sign Up' button is not perfectly centered horizontally	vision-llm	70%
info	color	The color scheme used (blue for the button) might not be consistent with a potential brand or accessibility guidelines	vision-llm	50%
minor	text	The text 'Sign up to get started' could be considered for localization or made more actionable	vision-llm	60%

Recommendations	
- Adjust the spacing between 'Sign up to get started' and the email address input field - Center the 'Sign Up' button horizontally - Review the color scheme for consistency with brand and accessibility guidelines - Consider localizing or making the text 'Sign up to get started' more actionable - Conduct a thorough review of the UI for any other potential issues

The screenshot displays the Visual Regression Testing Platform interface. The top navigation bar shows the current path: "Visual Regression Testing Platform - Final Collated API Collection > 04 - Regression > subMode=pixel (deterministic, Resemble.js)". The main area shows a POST request to the endpoint `{{baseUrl}}/validations/regression`. The request body is raw JSON, containing the following payload:

```

baselineImageId: "{{baselineImageId}}", "currentImageId": "{{currentImageId}}", "subMode": "pixel"

```

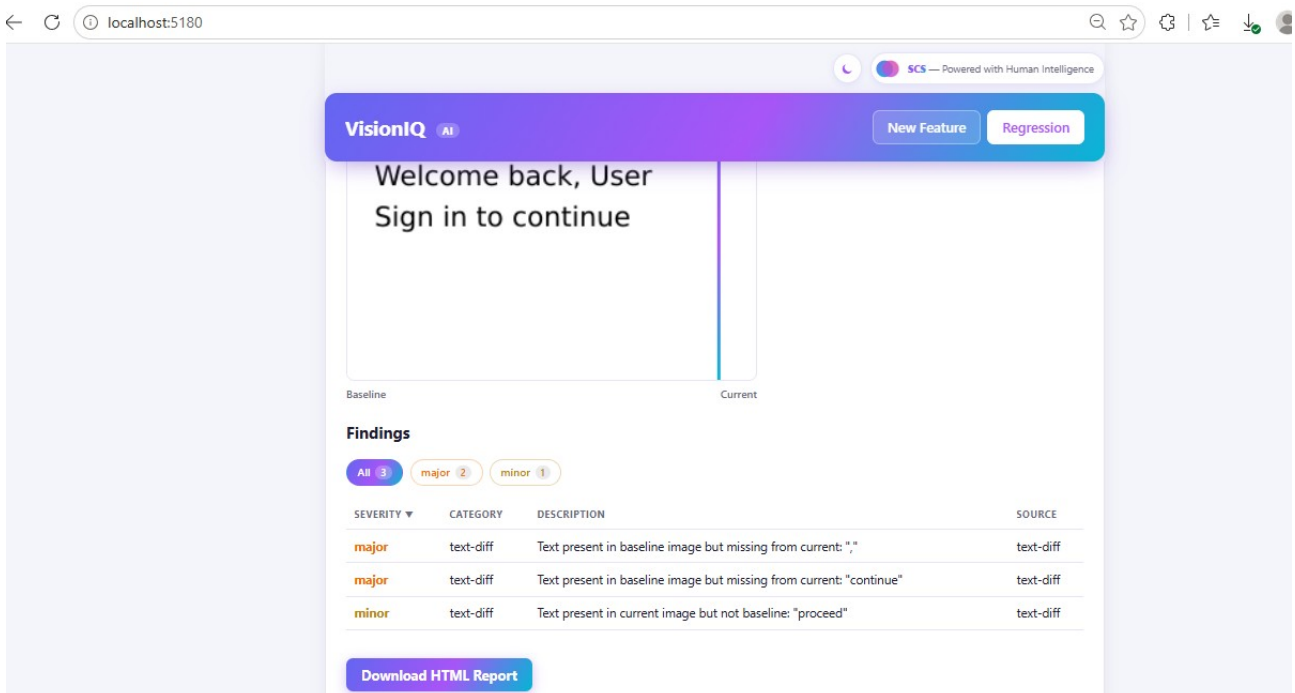

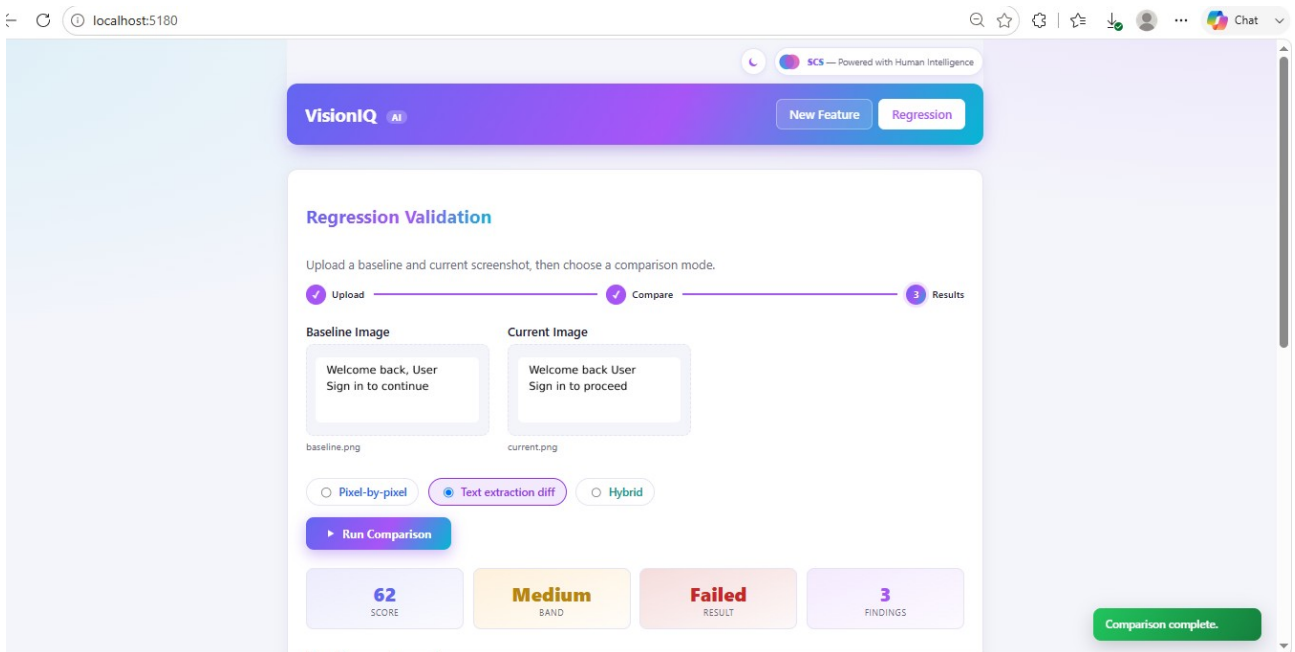

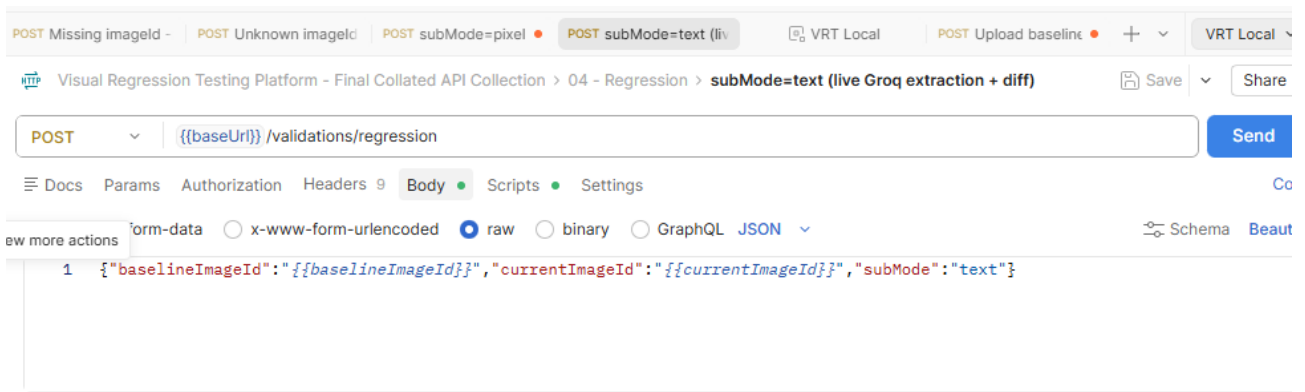

The response is a 201 Created status, with a response time of 849 ms and a body size of 707 B. The response body is shown in JSON format, detailing the test results:
