

Jest + ts-jest → Unit tests in TypeScript with mocking & coverage
Supertest + @types/jest → API route testing + IDE autocompletion

AI-Shield Test Execution Report

Started: 2026-07-07 15:10:12

Suites (10)

10 passed
0 failed
0 pending

Tests (36)

36 passed
0 failed
0 pending

^ C:\Users\Srinivasan\Desktop\genai-assignments\AI-Shield-Moderation\tests\routes\moderate.route.test.ts 11.68s			
Moderation Combined Endpoint Integration Tests	should allow clean requests and return HTTP 200	passed	0.167s
Moderation Combined Endpoint Integration Tests	should mask PII and CII and return HTTP 200	passed	0.027s
Moderation Combined Endpoint Integration Tests	should block secrets and injections and return HTTP 422	passed	0.026s
^ C:\Users\Srinivasan\Desktop\genai-assignments\AI-Shield-Moderation\tests\detectors\cii.detector.test.ts 0.807s			

CiiDetector	should allow clean text	passed	0.005s
CiiDetector	should detect corporate codename keywords and intranet URLs	passed	0.007s
CiiDetector	should mask text correctly	passed	0.002s
CiiDetector	should return ALLOW if cii detector is disabled	passed	0.002s
^ C:\Users\Srinivasan\Desktop\genai-assignments\AI-Shield-Moderation\tests\engine\decision.engine.test.ts 0.958s			
DecisionEngine	should resolve final action to ALLOW when all detectors are ALLOW	passed	0.002s
DecisionEngine	should resolve final action to MASK if any detector action is MASK and none is BLOCK	passed	0.001s
DecisionEngine	should resolve final action to BLOCK if any detector action is BLOCK, overriding MASK and ALLOW	passed	0.001s
DecisionEngine	should construct standard moderation envelope response correctly	passed	0.002s

^ C:\Users\Srinivasan\Desktop\genai-assignments\AI-Shield-Moderation\tests\config\loader.test.ts 0.981s			
Config Loader Cache System	should load rules and parse JSON successfully	passed	0.008s
Config Loader Cache System	should load rules from cache if mimeType is unchanged	passed	0.004s
Config Loader Cache System	should reload rules from disk if mimeType changes	passed	0.005s
^ C:\Users\Srinivasan\Desktop\genai-assignments\AI-Shield-Moderation\tests\detectors\token.detector.test.ts 0.611s			
TokenDetector	should allow text below limits	passed	0.002s
TokenDetector	should block text exceeding model limits	passed	
TokenDetector	should fall back to default limit if model name is unknown	passed	
TokenDetector	should return ALLOW if detector is disabled	passed	
^ C:\Users\Srinivasan\Desktop\genai-assignments\AI-Shield-Moderation\tests\detectors\file.detector.test.ts 0.749s			

^ C:\Users\Srinivasan\Desktop\genai-assignments\AI-Shield-Moderation\tests\detectors\file.detector.test.ts 0.749s			
FileDetector	should allow valid files	passed	0.002s
FileDetector	should block invalid extensions	passed	0.002s
FileDetector	should block files exceeding size limit	passed	0.001s
FileDetector	should return ALLOW if detector is disabled	passed	0.001s
^ C:\Users\Srinivasan\Desktop\genai-assignments\AI-Shield-Moderation\tests\detectors\toxic.detector.test.ts 0.491s			
ToxicDetector	should allow clean text	passed	0.001s
ToxicDetector	should block high severity toxic keywords	passed	0.001s
ToxicDetector	should allow low severity toxic keywords but report them	passed	0.001s
ToxicDetector	should return ALLOW if detector is disabled	passed	0.001s

^ C:\Users\Srinivasan\Desktop\genai-assignments\AI-Shield-Moderation\tests\detectors\pii.detector.test.ts0.447s			
PiiDetector	should allow clean text	passed	0.001s
PiiDetector	should detect email PII and Aadhaar PII	passed	0.002s
PiiDetector	should mask text correctly	passed	0.001s
PiiDetector	should return ALLOW if detector is disabled	passed	0.001s
^ C:\Users\Srinivasan\Desktop\genai-assignments\AI-Shield-Moderation\tests\detectors\injection.detector.test.ts0.432s			
InjectionDetector	should allow clean text	passed	0.002s
InjectionDetector	should block prompt injection patterns	passed	0.002s
InjectionDetector	should return ALLOW if detector is disabled	passed	0.001s

^ C:\Users\Srinivasan\Desktop\genai-assignments\AI-Shield-Moderation\tests\detectors\injection.detector.test.ts0.432s			
InjectionDetector	should allow clean text	passed	0.002s
InjectionDetector	should block prompt injection patterns	passed	0.002s
InjectionDetector	should return ALLOW if detector is disabled	passed	0.001s
^ C:\Users\Srinivasan\Desktop\genai-assignments\AI-Shield-Moderation\tests\detectors\secret.detector.test.ts0.466s			
SecretDetector	should allow clean text	passed	0.002s
SecretDetector	should block OpenAI API keys and redact finding value	passed	0.001s
SecretDetector	should return ALLOW if detector is disabled	passed	0.001s
